

ANIKET BISWAS

Senior Angular / Full-Stack Developer

Montreal, QC +1 (902) 414 9427 aniketbiswas2017@gmail.com [LinkedIn](#) [Website](#)

PROFILE

Ten+ years building web applications, the last eight inside Angular. Deep specialist in Angular (v2–20+), TypeScript, RxJS and NgRx state architecture, with production full-stack work across Node.js, GraphQL and AWS. Known for taking legacy platforms to modular, accessible, high-performance SPAs, and raising the engineering standard of the teams around them. Now extending into applied AI, learning LLM retrieval pipelines, embeddings, vector search and FastAPI services.

SKILLS

EXPERT	Angular (v2–20+) · TypeScript · RxJS · NgRx · JavaScript ES6+ · HTML5 / CSS3 · WCAG / AODA
STRONG	Node.js · Express · GraphQL / REST · WebSockets · AWS (Lambda, ECS, S3, RDS, IAM) · Docker · CI/CD
WORKING	Python · Java · C# · Kubernetes · Helm · PostgreSQL · MongoDB · ElasticSearch · Azure
TESTING	Jest · Jasmine · Karma · Cypress · Selenium · Testing Library · TDD
INTERFACE	Angular Material · Bootstrap · D3.js · Go.js · Grafana · Design systems
TOOLING	Git · Webpack · Vite · ESLint · SonarQube · Jira · NGINX · Agile / Scrum
EMERGING	LLM integration · Prompt engineering · RAG (LangChain.js) · FastAPI · Vector databases

EXPERIENCE

Senior Application Developer IBM

Nov 2022 – Present

Air Canada Web Application · Halifax, NS

- Own a reusable Angular component library (v12–20+) consumed by 5+ product teams, covering responsive layout, accessibility and dynamic content injection.
- Design NgRx store and effect modules for platform-wide state, caching, error handling and derived selectors.
- Ship customer-facing UI on dynamic templates, reactive forms and i18n pipelines, iterating directly with designers and business analysts.
- Lead code review, mentor junior developers on RxJS and state design, and uphold test and accessibility standards.

Software Developer Bluelight Analytics

Aug 2020 – Sept 2022

Research & Development · Halifax, NS

- **Front end** Re-architected a legacy application into a modular, mobile-first SPA on Angular 9–13, WCAG compliant.
- **State & data** Built GraphQL-powered smart components on RxJS observables with selective NgRx updates, cutting memory pressure and redundant re-renders.
- **Architecture** Introduced a feature-driven store pattern isolating business logic per module, letting independent features ship without cross-team coupling.
- **Backend & cloud** Deployed and operated infrastructure on AWS (EC2, RDS, S3, Lambda, ECS/EKS) with IAM role control and CI/CD pipelines.

Software Engineer Cisco

Sept 2019 – Feb 2020

NextGen DevX Platform / Secure Firewall · Ottawa, ON

- Built Angular and Go.js dashboards for next-generation firewall telemetry and threat visualisation.
- Refactored monolithic components to improve scalability across services and cut page load times.
- Automated multi-container deployment with Docker Compose, Helm and Kubernetes.

JavaScript Developer Mariner Innovations

Jan 2019 – Apr 2019

Co-op · Saint John, NB

- Parsed and visualised telecom network datasets in Grafana through multi-panel operational dashboards.
- Built Angular SPAs with Material-based custom components, binding views to live data for network and event tracing.

Software Engineer Tech Mahindra

Nov 2015 – June 2017

Microsoft Automation, R&D · Hyderabad, India

- Implemented LUIS and Microsoft Cognitive Services for Cortana and other conversational bots: early production NLP work.
- Translated UX wireframes into responsive interfaces using HTML/CSS, Bootstrap, AngularJS and JavaScript.

Full-Stack Developer SpaceOnix

Jan 2014 – Nov 2015

Start-up · India

- Built the end-to-end mobile and web stack, including native Android apps, AJAX-powered forms and admin panels.

- | | |
|------------------|---|
| BUILDING | Market intelligence platform. Next.js and FastAPI, FinBERT sentiment, LSTM forecasting. |
| 10 HRS/WK | LLM fundamentals and prompt engineering. DeepLearning.AI coursework and certification. |
| 5 HRS/WK | RAG systems. LangChain.js project: chunking, embeddings, vector search, grounded synthesis. |
| 4 HRS/WK | Angular signals and zoneless change detection. Token-streaming AI chat interface in Angular 22. |
| 3 HRS/WK | Backend Python. FastAPI microservice with typed schemas, async endpoints, containerised delivery. |

E D U C A T I O N**Master of Applied Computer Science** Dalhousie University, NS

2017 – 2019

B.Tech, Information Technology Guru Nanak Institute of Technology, India

2011 – 2015

R E C O G N I T I O N

- | | |
|------------------|--|
| PROJECTS | Plextra, an Angular seat-selection web application · Olympic medal predictor, using D3.js and ML model at ~70% accuracy · Global terrorism pattern visualisation · E-commerce mobile application for pet services. |
| AWARDS | Winner, MI17 Hackathon and 2018 SolutionScapes · Runner-up, WatsonX Generative AI Challenge IBM · ‘Pat on Back’ award, Microsoft IBU · Microsoft Azure, Generative and Agentic AI certified. |
| TEACHING | Technical Mentor, Shift Key Labs · Teaching Assistant, Mobile Computing and Advanced Databases. |
| COMMUNITY | Founding member, Robotics Club and Tech Symposium, GNIT, India. |
